

Installing the Visionet setup software for Windows Download and install instructions

Download instructions:

1. Select the software link from the Visionet web site menu or go to <http://support.visionet.net/software.htm>
2. Click **Download** button for the Visionet setup software
3. From the file download window, click **SAVE**
4. A **Save As** window will prompt you to choose a directory on your computer in which to save the **dialer.exe** file. Click the down arrow next to Save in: and select **Desktop**
5. Click **Save** to start the download
6. When download is complete, you will have on your desktop, an icon with a yellow phone and two little monitors labeled **dialer**
7. You have successfully downloaded the dialer software. See instructions below to complete the installation

Install instructions:

1. Double-click the dialer icon located on your desktop
2. Read the Acceptable Use Policy, and click Accept or Decline
3. Enter Your name
4. Enter the username selected during signup (this will start with either VN or VO)
5. Enter dialup password (twice) (password IS case sensitive and you will only see ***** in the password field)
6. Enter your full email address
7. Enter your email password
8. Select your email domain from the drop down box (new customers use visionet.NET, some existing customers may have visionet.ORG)
9. Click Select for listing of dialup numbers
10. Choose a local number for your area, click OK
11. Verify that the number you have selected is a local call, then click OK
12. Click OK from the dialer window to continue with installation
13. If you have existing Email accounts setup, you will be given the option to keep or remove them. Select Yes or No
14. Technical support phone number is provided if needed
15. Next you may select to install (optional) programs. Some program installations require Internet access to complete download and installation. Make selections from the menu or click Finish to complete setup installation.

Congratulations!

You've now completed the installation.

**Click the Visionet Online Services icon located on your desktop
or open your browser or email program and click CONNECT
on the Visionet dialer window.**
